

STUDENT HEALTH SERVICES

LEARN recognizes the need to protect and improve the health of students in order to allow each student to achieve their greatest educational potential. In order to do this LEARN will negotiate and enter into an agreement for nursing services in district schools. The Board also employs the professional services of a School Medical Advisor and appropriate professional support services. The Director or appointee shall manage these health services. Health services shall be directed toward detection, prevention, ongoing monitoring of health problems and to provide emergency interventions.
